-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments filed 11/21/2005 have been fully considered but they are not persuasive.

Applicant's statement at page 6 of the remarks that neither Nodera et al, Gunther et al or Martini et al suggest a composition that includes an optical brightener of Formula - (2) are moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ueda et al, US Patent No. 5294510 in view of Fagerburg et al, US Patent No. 5783307.

Ueda et al discloses optical brighteners that correspond to those of applicant's formula (2). See col. 5, formula I-10. The optical brighteners are used in resinous binders that may be either polyesters or polycarbonates. See col. 23, lines 29-45.

Fagerburg et al, '307 discloses polyester and /or polycarbonate compositions, such as the type disclosed by applicant that include optical brighteners and UV absorbers. See col. 4, line 47

Art Unit: 1714

through col. 5, line 47 and col. 8, line 60 through col. 9, line 38. The compositions may be molded into multi-layered sheets. See col. 10, lines 3-12.

Since Fagerburg states that a wide range of optical brighteners may be used in the invention, the use of the specific optical brighteners of Ueda et al in the Fagerburg et al compositions would have been obvious to one of ordinary skill in the art at the time of applicant's invention, absent a clear showing of unexpected results.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
